Inside Information

CaixaBank S.A. hereby reports that its Board of Directors, has agreed to approve a share buy-back programme ("the **Programme**" or "**SBB**") for a maximum amount of 500 million Euro once the appropriate regulatory approval has been received.

The SBB will take place in accordance with Article 5 of EU Regulation 596/2014 of the European Parliament and Council of 16 April 2014, concerning market abuse (the "**Market Abuse Regulation**") and Delegated Regulation (UE) 2016/1052 of the Commission (the "**Delegated Regulation**"), and pursuant to the resolution approved by the Ordinary General Shareholder Meeting of 22 May 2020, and will have the following characteristics:

- Purpose of the Programme: to reduce the share capital of CaixaBank by means of the amortisation of its own shares, as acquired under the SBB. The authorisation to reduce the share capital was approved by the Ordinary General Shareholders Meeting of 2024, held on 22 March 2024, on second call. The capital reduction under this authorisation may be executed in one or several times, before the Ordinary General Shareholders Meeting of 2025.

- Maximum investment: the Programme will have a maximum monetary amount of 500 million Euro.

- Maximum number of shares: the maximum number of shares to be acquired during the execution of the SBB will depend on the average price at which purchases have taken place and, in addition to the own shares held by CaixaBank´s at any given time, shall not exceed 10% of the share capital of CaixaBank.

- Term of the Programme: the SBB will start at some point from 31 July, which will be informed in due course, and in any case, will end no later than 31 January 2025. Nevertheless, the Company reserves the right to terminate the SBB if the maximum monetary amount is reached earlier or if any circumstance arises which should so advise or require.

- Programme execution: The Programme will be executed externally by an investment bank that will manage the Programme and take its own decisions as to the timing in which it purchases shares, independently of the Company, complying at all times with the limits and conditions set out in the Market Abuse Regulation and in the Delegated Regulation. More specifically, no more than 25% of the average daily volume of shares in the venue where the purchase takes place can be purchased on any given trading day, with the average daily trading volume of each trading venue corresponding to that of the twenty trading days prior to the date of each purchase.

- Trading venues: the purchases will be carried out in the "Sistema de Interconexión Bursátil Español- Mercado Continuo" as well as in DXE Europe, Turquoise Europe and Aquis Exchange.

For the purposes of calculating the regulatory capital and in accordance with the applicable prudential regulation[1], CaixaBank will deduct the maximum monetary amount of 500 million Euro from the solvency ratios as of 30 June 2024. For illustrative purposes, CaixaBank's Group solvency ratios as of 31 March 2024 and pro-forma ratios with the impact of the SBB are detailed below:
