Inside Information

CaixaBank S.A. hereby reports that, having received the relevant regulatory authorisation, the Board of Directors has agreed to approve a share buyback programme (the “Buyback Programme”, the “Programme” or “SBB”) for a maximum amount of 500 million euros.

The Buyback Programme will be carried out in accordance with Article 5 of EU Regulation 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (the “Market Abuse Regulation”) and Delegated Regulation (UE) 2016/1052 of the Commission (the “Delegated Regulation”) and will have the following characteristics:

- Purpose of the Programme: to reduce CaixaBank’s share capital by amortising the own shares acquired under the SBB. The capital reduction may be carried out based on a proposal of delegation to the Board of Directors for capital reduction to be submitted to the Ordinary General Shareholders Meeting in 2025.

- Maximum investment: the Buyback Programme will have a maximum monetary amount of 500 million euros.

- Maximum number of shares: the maximum number of shares to be acquired under the Programme will depend on the average purchase price and, together with the own shares already held by CaixaBank at any given time, shall not exceed 10% of CaixaBank’s share capital.

- Term of the Programme: The Program will commence at some point after the finalisation of the ongoing Buyback Program, having been communicated its approval through inside information filing of 31 October 2024 (registration number 2442) and initiated on 19 November 2024 through other relevant information filing (registration number 31423), which will be duly informed, and in any case, it will have a maximum duration of six months from the commencement date. Nevertheless, the Company reserves the right to terminate the Buyback Programme if the maximum monetary amount is reached earlier or if any circumstances arise that would advise or require such termination.

- Programme execution: The Programme will be executed externally by an investment bank that will act as the Programme manager and will make its own decisions regarding the timing of the share purchases, independently of the Company, while complying at all times with the limits and conditions established in the Market Abuse Regulation and the Delegated Regulation. In particular, no more than 25% of the average daily volume of shares in the trading venue where the purchase takes place can be purchased on any trading day, with the average daily trading volume for each trading venue being that of the twenty trading days prior to the date of each purchase.

- Trading venues: the purchases will be made on the "Sistema de Interconexión Bursátil Español- Mercado Continuo" as well as on the DXE Europe, Turquoise Europe and Aquis Exchange.

For the purposes of calculating the regulatory capital and in accordance with the applicable prudential regulations[1], CaixaBank will deduct the maximum monetary amount of 500 million euros from the solvency ratios as of 31 December 2024.
